A Magical Soiree for Alzheimer's Orange County

It was an evening of entertainment and inspiration for the 300 supporters who attended Alzheimer's Orange County's annual ball, themed A Magical Soiree. A "Tonight Show"-esque sit-down had Alzheimer's O.C. President and CEO Jim McAleer chatting with Dr. Joshua Grill, the executive director of UCI Mind, and Dr. Dung Trinh, the chief medical officer of the Healthy Brain Clinic, who discussed treatments and strategies to reduce the risk of developing the disease. Then magician Justin Willman, star of Netflix's "Magic for Humans," thrilled guests with an interactive show. The nonprofit also took a moment to honor the Webb Family Foundation and Lugano for their years of support. And by the end of the night, \$765,000 had been raised to fund programs to help Orange County families, caregivers, and those diagnosed with Alzheimer's and other forms of dementia. "We're incredibly grateful to all who attended and contributed to this magical night," said McAleer. "Alzheimer's disease hasn't gone away, and until it does, we won't either."
